Escapes An Awful Fate,

A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate, "Typhoid pneumonis had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, it's the most reliable of all throat and lung medicines. Every bottle guaranteed. Me and \$1.00, Trial bottle free at The Lee & Osgood Co.

The Demons Of The Swamp are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the loy chills and blood. Then follow the loy chills and the fires of fever. The appetite files and the strength fails; also malaria often paves the way for deadly typhold. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucama. N. C., "three bottles drove all the malaria from my system, and I've the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills, 50 cts, at The Lee & Osgood Co.

There are people in this town who unthinkingly neglect "a mere cold" though they would not otherwise ex-pose their children or themselves to danger. Yet a cold neglected may depose their children of themselves to danger. Yet a cold neglected may develop into contagious diphtheria, preachitis, or pneumonia. Use Foley's Honey and Tar Compound promptly for it stops coughs quickly and cures colds. It contains no opinion and is safe for children. The Lee & Osgood 1912.

NEW HAVEN'S INCOME To Be Larger Than Ever Before-Road Has Earned Biggest Divisable Surplus in Its History.

New York, New Haven and Hartford proper, i. e., the steam railroad, will show its full eight per cent dividend of, by Russell, and Ecstasy, by Rum-nell, were given in perfect voice and oloring. Another pleasing number by he club was the Cavaller's Song, a noem by William Motherell, given a rate covered in the year to June 30 most \$2,000,000 more in dividends to New Haven than they did in 1911 fiscal period. While it is practically assur-ed that New Haven's other "income" will be greater than ever before, it is doubtful if it will be sufficient to enable the road to show its dividend entirely earned. The combined income acount of the New Haven system may show a small surplus over eight per cent. dividends on the amount of New Haven stock actually in the hands of the public, or it may show a small deficit it is too early to say which. Indications are that New Haven will

earn the largest divisable surplus in its history in the current year, but on the other hand dividend requirements the other hand dividend requirements are increased from \$12,454,552 paid in the last fiscal period to \$14,318,376. The combined income account of the system, which includes the New Haven proper and its various electric and steamship properties for the six months to December 31 showed a net divisable income of \$7,809,684 compared with \$10,573,402 for the full tweive months ended June 36 last. Thus, the 1912 year appears to be more profitable for the New Haven system than was 1911. It remains for the closwas 1911. It remains for the clos-ing of the books on June 30, however, to finally disclose actual profits and the amount paid to New Haven in dividends. From the present outlook the net divisable income of the sys-dividend requirements with a fileh. dividend requirements, with a slight variance perhaps either way.
